DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Independent claims 1 and 10 are allowable over the prior art of record since the cited references taken individually or in combination fail to disclose in particular a signal processing method and apparatus, respectfully, supplying an audio signal to a plurality of speakers arranged in a speaker array to from a sound field comprising estimating at least one amplitude characteristic by predicting a sample count of the signal at a second point in the sound field, selecting effective ones of the amplitude characteristics corresponding to the sample count, and adjusting cut-off frequency of a variable high pass filter and the delay time in each of digital filters based on the adjusted amplitude characteristic such that the frequency response at a second point in the field is lower than the frequency response of the audio signal at a first point in the sound field. The closest prior art of record Bienek et al. (WO 02/078388) discloses adjusting amplitude characteristics of a plurality of digital filters in a speaker array however does not disclose the amplitude characteristics corresponding to the sample count, and adjusting cut-off frequency of a variable high pass filter and the delay time in each of digital filters based on the adjusted amplitude characteristic such that the frequency response at a second point in the field is lower than the frequency response of the audio signal at a first point in the sound field. Therefore, Bienek and likewise the other references of record do not disclose the above patentably distinct limitations of independent claims 1 and 10 and it would not have been obvious to one of ordinary skill in the art at the time

Art Unit: 2614

of the invention to modify the prior art to include all the limitations of independent claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
